INTRODUCTION

This is the first ever Puroik concise Dictionary which is bring forth. First of all I would like to say in regards of the making of Puroik Dictionary. Really, it is a well known that the Puroik Community is a downtrodden and considered as sedentary in every field. Therefore, it is an unanimously efforts step has been taken by All Puroik Welfare Society (APWS) to make a concise dictionary so that Puroik people especially for school going students who are lack or hard to learn English, they can speak English through help of Puroik translated meaning.

Secondly, how to read and write Puroik dialogue. It has been made primer, by used of roman alphabet, we can read and write which shown how to use alphabet in Puroik. So, till the concrete modification this will be used Puroik alphabet. There may be a pronunciation problem or hardship to pronounce correctly because there was no habit of reading and writing in Puroik.

Moreover, it is my an appeal to all the people of Puroik community as a whole. Without language there is no identity, language itself is the identity of one's community or tribe. Therefore, it is my earnest appeal to my people to preserve and promote the language of own mother tongues, otherwise it will loss. Today computerize era, people forget everything their own culture especially language or dialogue. So, before going into deep, everyone should realize how and what will be for future and language meant.
